

# AngularJS

Bangkok .NET Users Group  
June 9th, 2015

# Our presentation

The basics of AngularJS

Structuring a real-world project

Angular 2 - what's next?

# Why AngularJS?

HTML was originally made for simple documents. Now, users expect responsive, AJAX-driven websites.

That's hard!

# Why AngularJS?

AngularJS **turbocharges** your HTML  
so you can write dynamic  
applications quickly.

**Demo**
